

LIME ROCK WINES

SAUVIGNON BLANC

GROWING REGION:

Central Hawke's Bay, New Zealand.

TERROIR:

From north-facing limestone hillsides (less than 2% of NZ vineyards are planted in limestone soils!) From five different blocks of vines that give a range of flavors. Certified Sustainable.

GRAPES:

Sauvignon Blanc.

VINIFICATION NOTES:

Cool fermentation in stainless steel. A short maturation on lees.

TASTING NOTES:

Beautifully balanced acidity drives long-lasting, toothsome flavors. This is a wine rich with nuance from the vineyard's calcareous soils.
