

DOMAINE PAUL MEUNIER  
QUARTIER LIBRE

---

**GROWING REGION:**

Deep in France's Roussillon, on the flanks of the Pyrenees.

**TERROIR:**

From 7 old parcels. Granite sand and black schist soil.

**GRAPES:**

50% Grenache, 20% Carignan, 20% Syrah, 10% Lledoner Pelut.

**VINIFICATION NOTES:**

Some of the Carignan and Grenache is fermented in amphora, the rest in steel. Elévage takes place in neutral barrels. 325 cases.

**TASTING NOTES:**

An explosive wine, rich with blue notes, spicy and juicy--savory--and buttressed with delicious tannins.

## LES CHORÈMES ROUGE

---

### **GROWING REGION:**

Deep in France's Roussillon, on the flanks of the Pyrenees.

### **TERROIR:**

From 4 parcels of especially old vines. Granite sand soil with black schist.

### **GRAPES:**

60% Carignan, 20% Grenache, 15% Syrah, 5% Lledoner Pelut.

### **VINIFICATION NOTES:**

Raised in older barrel; only 165 cases.

### **TASTING NOTES:**

Explosive, like its younger brother the Quartier Libre, but deeper, darker, and certainly more brooding. Needs air!

## LES CHORÈMES BLANC

---

### **GROWING REGION:**

Deep in France's Roussillon, on the flanks of the Pyrenees.

### **TERROIR:**

From a single parcel of vines planted as a field blend in 1950. On a high, north-facing slope of black schist soil.

### **GRAPES:**

80% Macabeu with 20% Grenache Gris interspersed. Vineyard plowed by horse.

### **VINIFICATION NOTES:**

Fermentations take place in amphora and steel, and the wine is raised on its fine lees in steel. Only 165 cases.

### **TASTING NOTES:**

Lifted aromatics, lovely body with excellent richness, yet bone dry and long. With air (and it can take a lot of aeration), the stone and stone fruit emerge. A rare and remarkable wine.
