

LES PARCELLAIRES

de Saulx

CHAMBOLLE MUSIGNY
1^{ER} CRU "LES FEUSSELOTES"

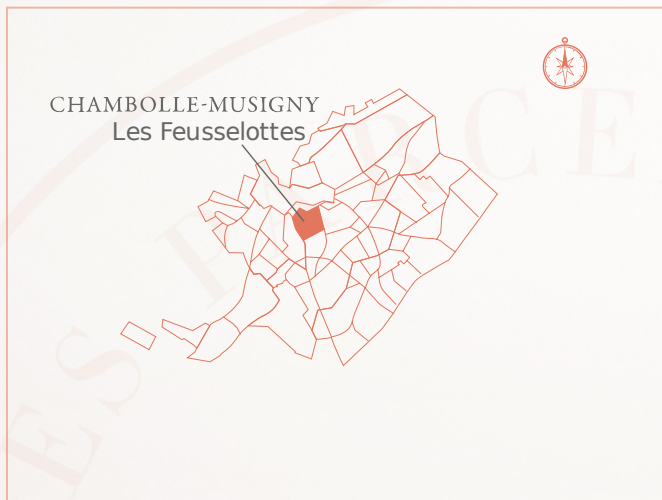

ELEGANT AND COMPLEX

THIS "CLIMAT"

"Feusselot" is a diminutive of the Burgundian word "fousse" for "pit". The name of this climat bears witness to the presence of former quarries, which have been filled in. The name of the hamlet means "the little pits" and the vines are in fact located in a slight dip in the land in the centre of the village between 2 slopes of Chambolle.

TERROIR

Located in the heart of the village, this climat prospers on a soil that is composed of red silt from the Combe, or valley. This shallow soil intensifies the subtle minerality, fine grain and spicy accents of the wine.

TASTING

Appearance: Deep ruby colour.

Bouquet: Good aromatic intensity with a complex bouquet consisting of red fruit aromas, such as wild strawberry and raspberry and more floral notes.

In the Mouth : The balance between strength and finesse is remarkable. Great acidity provides tension and precision at the finish, and imparts great ageing potential in this wine.
