

LES PARCELLAIRES

de Saulx

MEURSAULT
"LES PELLANS"

MINERAL AND GENEROUS

THIS "CLIMAT"

"Pellan" is a word derived from the Old French "PEVLE" which meant "Pasture" and designated plots on the plain rather cool and humid.

TERROIR

Located South of Meursault, near Puligny-Montrachet, just below "Les Charmes", this climate is in the plain with an East / South East exposure. The slope is low towards the north from half of the locality. The clay-limestone soil is composed of limestone, sand, silt, marl and clay, resulting from the erosion of the hillsides located higher up.

TASTING

Appearance : bright and golden

Bouquet : fine and racy in a complex style with notes of fresh fruits such as peach, pear, honeysuckle and slightly buttery with its oxygenation

Taste : dense, fleshy with fullness and a tense finish marked by a fine freshness with lemon.
