Furd Pinot Gris 2022

The 2022 Pinot Gris Furd was made in stainless steel and sandstone egg. Freshly cut flesh of Comice pear lends aromatic overtones. The slender palate comes in with brightness but supplements this with a mellow creaminess from malo-lactic fermentation. There is a mellowness and a richness that is buttery and round. The contour and brightness taper to a super-fresh, bright finish. (Bone-Dry)
