

Château Unang Ventoux

Ventoux Rosé 2024

The 2024 Château Unang Rosé is made from a blend of forty percent cinsault and thirty percent each of grenache and syrah. The wine is a lovely, pale salmon color and tips the scales in this vintage at thirteen percent octane. The wine offers up a bright and expressive bouquet of watermelon, white cherries, a fine base of soil, white flowers a just a whisper of coriander seed in the upper register. On the palate the wine is full-bodied, focused and succulent, with a lovely core of fruit, good soil undertow, sound framing acids and fine balance on the long and complex finish. Fine juice. 2025-2029.
