Château Haut-Monplaisir
Cahors

Cahors L'Envie 2020

This is Chateau Monplaisir's zero-sulfur bottling, which they've made since 2015. In 2020, the wine's wild-ferment meatiness adds to a texture amped up by burstingly juicy red-berried fruit. That meatiness would push me in the direction of offal, not that I need much of a push: blood sausage, liver and onions, or a kidney pie.

90 pts– Wine & Spirits, January 2023

Made as an expression of the pure berry fruits of Malbec, the wine is elegant, structured while ripe with juicy freshness. The wine is very complete, perfumed and will be ready from 2025. Organic.

92 pts– Roger Voss, Wine Enthusiast, October 2022
