

POST Mod-ern

From 25+ year-old vines on Sonoma Mountain, this was a vintage shaped by patience. A remarkably cool season led to our latest harvest ever on October 24. The east-facing slope and old St. George rootstock lend a naturally extended ripening window, offering something rare in Cabernet: full flavor concentration without sacrificing acidity or balance. While many chase power, we seek something different - refinement, elegance, purity, and pleasure.

Native fermentation in small oak open-top tanks allows for a slow, expressive fermentation, preserving nuance and energy.

The wine then rests for 18 months in older Bordeaux barrels, gaining depth without sweet oak influence. Finally, it is bottled unfiltered, allowing its true character to shine. Raw, honest, and deeply connected to its place.

The Antidote to Modernity
modern cabernet is built on excess - power for power's sake.

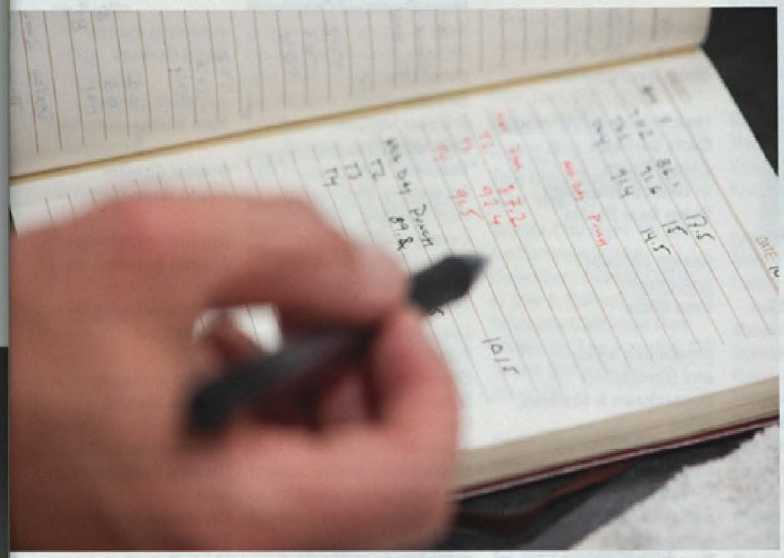

Post Modern Cabernet

stands in defiance of this. It's a wine that values purity over artifice, eschewing heavy-handed techniques for a focus on nuance, structure, and drinkability.

You'll find a balance of depth and brightness, a nod to the past while embracing the future.It's proof that great Cabernet doesn't need to be overbuilt to make an impression

CABERNET sauvignON

an invitation to see differently:

Cabernet is not something preserved in time but something living, evolving, expressive, raw, & ready to challenge preconceived notions. unclouded by excess, with high definition fruit, the acid lifts, the structure holds, and the finish carries on.

2023 Sonoma Mountain Cabernet Sauvignon

A new way for-ward

Sonoma Mountain Cabernet Sauvignon

A nod to the past while embracing the future. Challenging conventions and pushing Cabernet Sauvignon into a new era.
